

The Center for Educational Effectiveness

Bryan Mills
Chief Technology Officer

bryan@effectiveness.org • (425) 283-0384

Experience

Bryan's professional career has spanned industries from technology, business analysis, and finance to educational services.

Transformative technology and educational service initiatives:

- Streamlining and transitioning a report production system built on Microsoft Excel and PowerPoint to Tableau, reducing a manual report production time of 2 minutes per report to an automated one through Tableau Server with production time of 20 seconds
- Migration of on-premise file server and computing to the cloud and enabling employees, vendors and school district partners secured file access from anywhere
- Tableau development of data mining tools, dashboards, reporting for school district leadership to analyze perceptual survey results and student achievement data
- Cloud-based ETL, database and scripting development through Azure and AWS

Business development activities:

- Researching targeted acquisitions for B2B marketplace facilitated through regional banking networks
- Vetting technology partners for B2B marketplace partnerships

Finance Activities:

- Creation and operation of a commercial mortgage brokerage in Southern California funding \$65mm in multi-family loans over 9 years
- Commodity trading algorithm development for futures and securities markets

Bryan is a graduate of The University of Kansas with a BA in Business Administration & Finance. **Rock Chalk Jayhawk!**
